DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Applicant's arguments filed 06/21/06 have been fully considered but they are not persuasive. See the explanations below.

3. Claims 1, 2, 4-10, and 12-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Honey et al 6,822,782 and Whitesides et al 2005/0168799.

The cited prior arts are of record in the previous communication, and their disclosures are as indicated therein. Applicants take the position that the cited prior arts do not disclose the use of anionic resin having an acid group or salt thereof, wherein the resin is crosslinked or cured. It is the Examiner's position that Applicants' arguments are not convincing, and in this regard Applicants are directed to column 30, lines 9-26; wherein patentees disclose the materials useful forming the shell or wall of the microcapsule. These materials include the anionic resins with an acid group, the same resins as used by Applicants. See also claim 6 of the '799. It is the Examiner's position that the cited prior arts have features and characteristics as claimed.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1711

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
